

FTP Information

Authoring Interactive Media
Sal J. Barry, Instructor

Each student in this class has been provided with server space. You will be expected to post your assignments and projects to the server.

The URL to your web space is:

```
http://iam.colum.edu/students/yournetworklogin
```

At School

When you are logged on to a computer in the IAM Department, you will be able to drag and drop files to your web space:

- On a PC, this will appear in the Z Drive as the “pub” folder
- On a Mac, this will appear in the home directory as the “pub” folder

At home, etc.

When you are away from school, you will need to use an FTP client to transfer your files.

```
Host:      iam.colum.edu
User ID:   whatever your network login is
Password:  whatever your network password is
```

FTP Clients

Some recommended FTP clients:

- For Windows
 - o FileZilla – <http://filezilla.sourceforge.net/> (Free)
 - o WinSCP – <http://winscp.net/eng/index.php> (Free)
 - o 3D-FTP – <http://www.3dftp.com/> (\$39.95)
 - o WS-FTP – <http://www.ftpplanet.com/download.asp> (free trial for 30 days, \$39.95 to purchase)
- For Macintosh
 - o Cyberduck: – <http://cyberduck.ch/> (Free)
 - o Transmit – <http://www.panic.com/transmit/> (\$17.95)
 - o Fetch – <http://fetchsoftworks.com> (free trial for 15 days, \$25 to purchase)

You can also go to www.download.com, and do a search for “FTP Mac” or “FTP Windows” for more FTP clients. Most are around \$20 to \$30. But some do have free 30 day trials, or are free but have ad banners or some other form of sponsored mode.
